Gameplay since the first part has not undergone any significant changes. Each level is a battle, which you have to select multiple units and send them to fight. Battles happen automatically, the user is here in the role of observer and reap the fruits of victory in the form of crystals and gold coins. Depending on the situation here, you can choose several types of fighters. As usual, there are infantrymen, archers and mounted cavalry, and elephants and exotic giants. Success will come only in case the player shows tactical prowess and assembles a squad capable of pushing on the weaknesses of enemy soldiers. Much more colorful graphics and sophisticated animation talking about what the developers have done a good job and improve visual dignity. There is also multiplayer where you can fight with the best players in the world and oust them in the general classification.
